

Rêveries musicales – *Musical Reveries*

Graduates from the prestigious Academie Orsay-Royaumont have been invited to the Festival this year. This academy offers the finest musicians an excellent training in the art of the French *mélodie* and the German *Lied*. Rich, intimate and quite demanding, these genres of solo song demand a close rapport between pianist and singer, just as, indeed, the poets and composers whose music is sung complement and enhance each other. Situated at the crossroads between music and poetry, the recital allows us to immerse ourselves in a small part of what is in fact a huge repertoire. It will be presented by four passionate musicians already known from their appearances at prestigious festivals and in leading concert halls.
